Summary

Highly motivated and skilled Frontend Developer with 0.5 years of experience in designing and implementing responsive, user-friendly web interfaces. Proficient in HTML, CSS, JavaScript, and frontend frameworks. Experienced in developing and optimizing website frontends using WordPress and Laravel while following UI/UX best practices. Familiar with Agile methodologies and version control using Git.

Skills

Programming Languages: Python, C++, Java, JavaScript, Dart, HTML, CSS, XML

Frameworks & Technologies: Laravel, Flutter, AngularJS, Tkinter, WordPress

Databases: MySQL, Firebase, SQLite

Tools & Software: Android Studio, Visual Studio, Tableau, VS Code, XAMPP, Git

Operating Systems: Windows

Experience

Frontend Developer Intern

Dec 2025 – Present

CartGeek

Environment: VS Code, XAMPP

- **Led frontend development across high-impact projects**, implementing fully responsive and visually consistent interfaces, resulting in a 15% improvement in user satisfaction scores.
- Developed and optimized website frontends on WordPress and Laravel, including UI implementation and alignment adjustments, leading to a 10% reduction in page load times.
- Implemented version control workflows using Git to manage code changes and maintain code integrity across projects.
- Worked with HTML, CSS, JavaScript, and PHP to build and maintain scalable frontend features for production applications.

Projects

Prakriti: An Offline Mobile Application for Crop Disease Diagnosis | Python, Java, SQLite

Nov 2025

- Developed a lightweight offline AI-based mobile application using the EdgeViT-S model for crop disease detection on low-end smartphones without internet connectivity.
- Integrated machine learning functionality with Android Studio to ensure smooth and efficient disease diagnosis.
- Focused on optimizing performance for low-resource devices while maintaining prediction accuracy.

SoulScript – A Journal App | Flutter, Dart, Firebase

May 2025 – Jun 2025

- Built a Flutter-based journaling application featuring daily reflections, affirmations, and sleep stories.
- Designed an engaging and user-friendly interface to promote mindfulness and mental well-being.
- Integrated Firebase backend services for authentication and data storage.

Ransomware Detector | Python, XGBoost

Feb 2025 – Mar 2025

- Developed a lightweight Windows GUI application integrating an XGBoost model to classify .exe files as benign or malicious in real time.
- Implemented machine learning model integration and GUI development for network behavior analysis.
- Focused on improving detection efficiency while maintaining lightweight system performance.

ActiveLife – Health and Fitness App | Java, SQLite

Oct 2024 – Nov 2024

- Developed a health and fitness application featuring workout plans, meal tracking, BMI calculator, and step counter functionalities.
- Designed an intuitive user interface with progress tracking and personalized fitness features.

Research Papers

- **Prakriti: An Offline Mobile Application for Crop Disease Diagnosis**
Published in the 6th Biennial International Conference on Nascent Technologies in Engineering (ICNTE). Research focused on a lightweight offline crop disease diagnosis system optimized for low-end smartphones using the EdgeViT-S model.
- **Ransomware Detection using Network Features in Windows Environments**
Presented at the Nextgen Technology and AI for Sustainable Future (NTAI) conference. Developed a real-time ransomware detection system using XGBoost with a lightweight Windows GUI application.

Awards & Certifications

- **AWS Academy Cloud Architecting** – Oct 2025
- **Microsoft Learn - Introduction to AI in Azure** – Jul 2025
- **TATA - GenAI Powered Data Analytics Job Simulation (Forage)** – Jun 2025
- **Deloitte - Data Analytics Job Simulation (Forage)** – Jun 2025
- **IdeaHub: Tech Ultimate Challenge Winner** – Aug 2024
- **Community Service Volunteering (Teaching)** – Jun 2023

Education

B.Tech Computer Engineering	Expected Graduation: 2026
<i>NMIMS School of Technology, Management and Engineering, Navi Mumbai</i>	<i>CGPA: 3.38 / 4</i>
XII - Maharashtra State Board	2022
<i>PACE Junior Science College, Thane</i>	<i>69.50%</i>
X - CBSE	2020
<i>DAV Public School, Thane</i>	<i>87.40%</i>
