SUMMARY

Entry-level Data Analyst and recent B.Tech Computer Engineering graduate with hands-on project experience in Python, SQL, PostgreSQL, Power BI, Tableau, and Excel. Comfortable with data cleaning, exploratory data analysis, KPI analysis, and dashboard development. Seeking a Data Analyst or Business Intelligence role to turn business data into clear, useful insights.

EDUCATION

B.Tech, Computer Engineering	2022 – 2026
SVKM's NMIMS School of Technology, Management and Engineering, Navi Mumbai	CGPA: 3.42/4.00
Class XII – Maharashtra State Board, PACE Junior Science College, Thane (2022)	69.50%
Class X – CBSE, DAV Public School, Thane (2020)	87.40%

TECHNICAL SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Jupyter Notebook, Data Cleaning, Exploratory Data Analysis (EDA), Data Validation

Databases: PostgreSQL, MySQL, SQLite

Visualization: Power BI, DAX, Tableau, Matplotlib, Seaborn

Excel: Pivot Tables, VLOOKUP/XLOOKUP

Tools: Git, GitHub, VS Code

PROJECTS

Customer Shopping Behavior Analysis *Python, Pandas, PostgreSQL, Power BI*

- Cleaned and transformed customer transaction data with Python and Pandas, handled missing values, and loaded the results into PostgreSQL.
- Built a Power BI dashboard covering customer behavior, purchasing patterns, revenue, and KPIs.

HR Analytics Dashboard *Tableau, Excel*

- Analyzed workforce data using HR KPIs across departments, demographics, salary, and attrition.
- Built an interactive Tableau dashboard on workforce distribution, departments, demographics, and attrition.

Airbnb Market and Pricing Analysis *Python, Pandas, Power BI*

- Performed exploratory data analysis on Airbnb listings: pricing, reviews, neighbourhoods, room types, host activity.
- Built Power BI visualizations for pricing, room types, neighbourhoods, reviews, and host patterns.

EXPERIENCE

Frontend Developer Intern – CartGeek *Dec 2025 – Jun 2026*

- Developed and maintained website frontends on WordPress and Laravel using HTML, CSS, JavaScript, and PHP, including UI implementation and layout and alignment adjustments.
- Built responsive, visually consistent interfaces for production web applications and supported ongoing website maintenance.
- Used Git for version control to manage code changes and keep code consistent across projects.
- Collaborated with team members in a shared development environment using VS Code and XAMPP.

RESEARCH PUBLICATIONS

Prakriti: An Offline EdgeViT-Based Mobile Application for Crop Disease Diagnosis

Published and presented at the 6th Biennial International Conference on Nascent Technologies in Engineering (ICNTE 2026). Used EdgeViT-S and the PlantVillage dataset (39 crop disease classes); 99.61% accuracy, 23.8 MB model.

Ransomware Detection using Network Features in Windows Environments

Presented at the Nextgen Technology and AI for Sustainable Future (NTAI) conference. Applied data preprocessing, feature analysis, and XGBoost classification in Python; the evaluated model achieved 94% accuracy.

CERTIFICATIONS & ACHIEVEMENTS

AWS Academy Cloud Architecting – AWS Academy	2025
Winner – IdeaHub Tech Ultimate Challenge	2024
Community Service Volunteering (Teaching)	2023
